## INSULATED WELDABLE

### CUP HEAD PIN

#### GZONI KP

*GZONI KP pins are purpose-built for the contact welding of technical insulation onto ventilation ducts and various structures using the "reverse" welding method. These nails feature dual insulation: paper on the washer and PE plastic on the pin. This design prevents burn-through of aluminum foil, and, unlike GZONI nails, they do not require manual application of insulator. This significantly accelerates the installation process.*

## TECHNICAL SPECIFICATIONS

	STANDARD	OPTIONS
Plate width:	30 mm	-
Plate material:	galvanized steel	stainless steel
Plate thickness:	0.4 mm to 0.5 mm	-
Pin diameter:	2.7 mm	3mm
Pin material:	copper-plated steel	stainless or galvanized steel
Pin length:	10 mm - 245 mm	-
Insulation:	paper and PE sleeve	-
Packaging:	cardboard	bucket

**NOTES:**  
**THESE PINS ARE PRODUCED TO ORDER**  
**MINIMUM ORDER QUANTITY IS 1,000 PIECES**
