INSULATED WELDABLE

CUP HEAD PIN

GZONI

GZONI pins are engineered for the contact welding of technical insulation onto ventilation ducts and steel structures using the "reverse" welding method. These nails feature insulation on both the plate and the pin, preventing burn-through of the aluminum foil during welding. Before installation, an black insulator must be applied to the pin.

TECHNICAL SPECIFICATIONS

	STANDARD	OPTIONS
Plate width:	30 mm	38mm
Plate material:	galvanized steel	stainless steel or black finish
Plate thickness:	0.4 mm to 0.5 mm	-
Pin diameter:	2.7 mm	3mm
Pin material:	copper-plated steel	stainless steel or galvanized steel
Pin length:	10 mm - 245 mm	-
Insulation:	black PVC insulator	-
Packaging:	cardboard	bucket

NOTES:
STANDARD PINS IN STOCK:
20, 30, 40, 50, 60, 63, 80, 100
OTHER LENGTHS ARE PRODUCED TO ORDER

MINIMUM ORDER QUANTITY IS 1,000 PIECES
